The City of Casa Grande, with a population of approximately 52,000, is located in the Central Arizona region in Pinal County between the metropolitan areas of Phoenix and Tucson. The City is soliciting Statements of Qualifications (SOQs) from qualified firms to provide stormwater drainage master plan along with drainage design feasibility study and concept report for the Downtown Streets Reconstruction project. Subject to availability of additional funds, the selected Consultant may, at the City's sole discretion, be awarded another contract to provide final drainage design services and possibly construction administration services.

The roadway infrastructure for Casa Grande's historic downtown needs reconstruction along with other infrastructure improvements. The area experiences repeated stormwater flooding during and after heavy rains. This impacts local business and results in partial or complete road closure for cleaning and maintenance purposes. Figure 1 shows the vicinity map of the city and approximate project limits.

SECTION 1: PROJECT DESCRIPTION

This project is for professional engineering services relating to the preparation of Stormwater Drainage Master Plan along with Drainage Design Feasibility Study and Report. The deliverables will be used in the future to facilitate remaining downtown road improvement projects for the Downtown Streets Reconstruction and future drainage infrastructure improvements/rehabilitation/reconstruction. The upcoming phase of Downtown Streets Reconstruction (Revised Phase III) project will also rely on this project deliverables for stormwater drainage alternatives with evaluations that are acceptable to the City. The proposed Phase III project area is shown in the Figure 2.

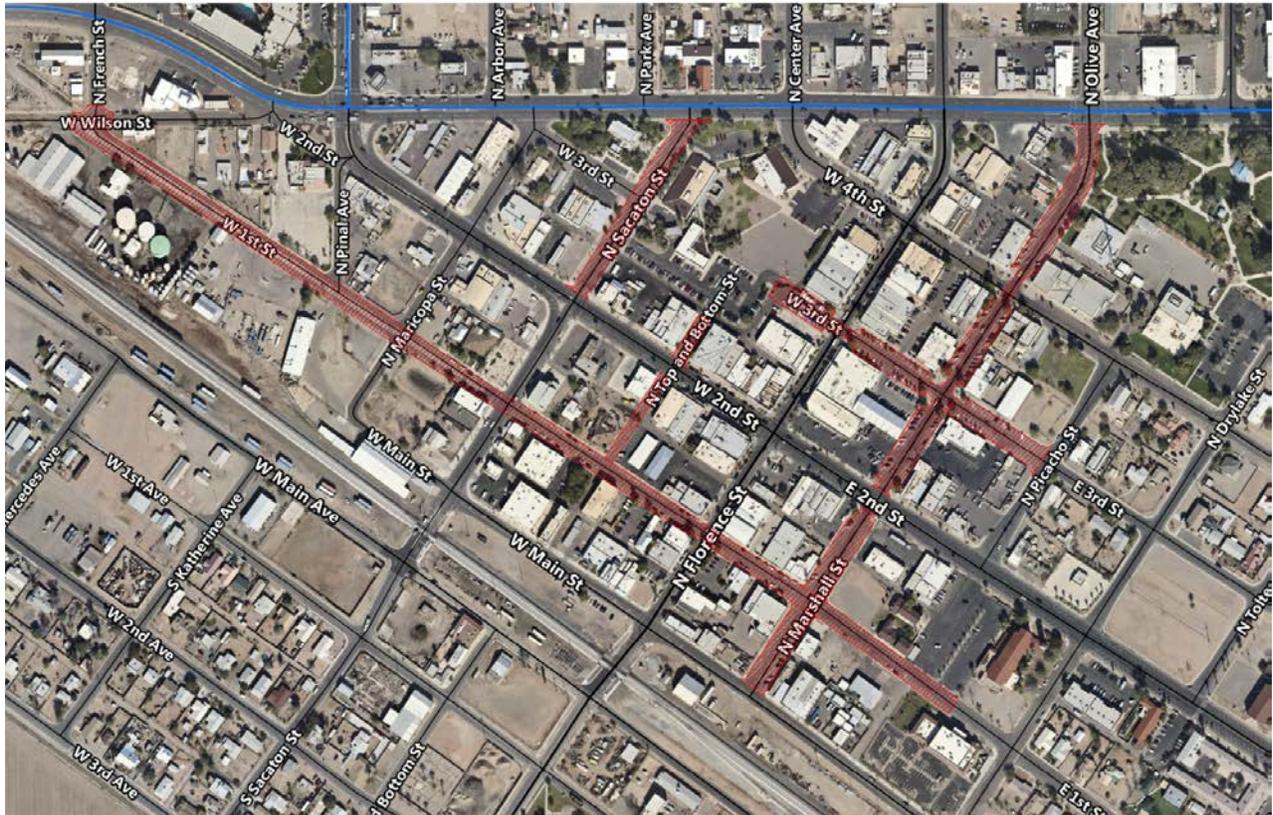

Figure 2: Casa Grande Downtown Streets Reconstruction Phase III – Proposed Project Area

The City has contracted DMJM HARRIS/AECOM in the past for professional engineering services for Downtown Streets Reconstruction. Entranco provided the Final Design Report for Downtown Streets Improvement project. DMJM HARRIS/AECOM and Entranco initially proposed the downtown improvements into three phases. In the recent years, City of Casa Grande has gone through two phases of downtown streets reconstruction. Phase I was completed around 2007 which involved reconstruction of Main Street from Casa Grande Ave to Sacaton Street. Phase I also involved costly stormwater drainage infrastructure. However, this area still receives stormwater flooding complaints during heavy rainfalls and requires maintenance.

The originally proposed Phase II involved the reconstruction of 1st and 2nd streets along with proposed stormwater drainage infrastructure. Stormwater infrastructure was deemed expensive with least benefits after lessons learned from Phase I construction. A substantial portion of phase II was removed from original Phase II plan and was completed in 2012. The revised Phase II involved reconstruction of 2nd Street from Casa Grande Ave and Pinal Street and mill and overlay of Florence Street only with no provisions of stormwater drainage infrastructure. The remaining portion of original design was deferred to the future phase/s.

The City would like to proceed with the final phase of Downtown Reconstruction. The major element besides paving of the final phase of reconstruction is stormwater drainage

infrastructure originally proposed by DMJMHARRIS/AECOM and Entranco. City would like to do a Drainage Master Plan along with drainage design feasibility study & report. The initial plan will provide conceptual alternatives and select final drainage design to facilitate current and future road improvement projects. The project will conduct cost-benefits analysis and propose cost effective, context sensitive, conceptual stormwater drainage alternatives with evaluations that are acceptable to the City. The City would proceed with selected alternative for upcoming Downtown Streets Reconstruction Phase III re-design and other future roadway improvement projects for the area.

All work shall be accomplished in accordance with State and, Local standards, guidelines and regulations, the Environmental Protection Agency and Arizona Statutes. Consultant will be selected through a qualifications-based selection process. A detailed scope of professional services and professional fees will be negotiated and will be submitted for review and approval by the City Council. Once approved, a formal contract will be executed between the City of Casa Grande and Consultant. The City will administer the contract and provide staff support.

The consultant selected to perform this work shall be required to obtain and maintain insurance coverage as specified in the sample Contract. Consultants selected to perform under this solicitation shall also be required to obtain a City of Casa Grande business license.

SECTION 2: ABBREVIATED SCOPE OF SERVICES

- iii. Mapping and Survey – Review existing contour/topographical mapping and supplement as necessary for the existing and proposed conditions analyses and designs.
- iv. Existing Conditions Hydrological and Hydraulic Analysis – Prepare hydrologic and hydraulic analyses of the existing project area which comprises Downtown streets phases I , II and III. The existing conditions analysis will identify flooding locations which will inform potential drainage solutions.
- v. Alternatives Evaluation and Analysis – identify and evaluate storm drainage system alternatives that will convey the estimated stormwater flows for the typical 2 to 10 year return period and generally prevent the 100-year stormwater flows from flooding the adjacent properties. Document the approximate evaluation criteria, including project costs, and prepare a comparison matrix for the alternatives.

Recommend a concept drainage solution based on the alternative evaluation. Develop and secure approval of appropriate evaluation criteria, including project costs, and prepare a comparison matrix. Recommend a solution based on the alternatives analysis.

- vi. Recommended Concept Plan – Prepare a cost-effective, context sensitive concept plan for the recommended drainage solution that is acceptable to the City and Stakeholders.

The implementation plans should show incremental projects, with their associated costs, that could be undertaken as funding permits to develop the project area drainage and roadway improvements to construct

Any extra cost or damage to the City resulting from such default(s) shall be deducted from any money due or coming due to the Consultant. The Consultant shall bear any extra expenses incurred by the City in completing the work, including all increased costs for completing the work, and all damage sustained, or which may be sustained by the City by reason of such default. If a notice of termination for default has been issued and it is later determined for any reason that the Consultant was not in default, the rights and obligations of the parties shall be the same as if the notice of termination has been issued pursuant to the Termination for Public Convenience paragraph hereof.

14.2.3 Failure of City of Casa Grande to demand the insurance certificate or other evidence of full compliance with these insurance requirements or failure of City of Casa Grande to identify a deficiency from any certificate provided to it shall not be construed as a waiver of Consultant's obligation to maintain such insurance.

14.3 Severability of Interests. The policies referenced in 14.1.2. and 14.1.3. shall contain a severability of interests clause, generally providing, "the insurance afforded applies separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the company's insurance."

14.4 Waiver of Subrogation. With the exception of Workers Compensation and Professional Liability Insurance, Consultant hereby waives any and all rights that it might have against City of Casa Grande, its employees, officers and directors, to recover all or part of any loss or damage insured or insurable by the insurance policies carried or required to be carried by it pursuant to the Contract Documents. Consultant shall require each of its agents, consultants, licensees and others performing the obligations, or exercising the rights, of Consultant under the Agreement to provide a similar waiver for City of Casa Grande's benefit.

14.5 Deductibles. Consultant may purchase the required insurance policies with deductibles which are reasonable in light of the consultant's financial condition; provided that any loss not covered due to the deductible will be paid by Consultant. Consultant shall also require its agents, consultants, licensees and others performing the obligations, or exercising the rights, of consultant under the Agreement to carry such property damage insurance. Such policy or policies shall cover the full insurable value of such tools and equipment.

18. Consultant Commitments, Warranties and Representations.
