Re: Recycling Center

Dear Mr. Drake:

This letter is to verify that the recycling of residential household product containers (i.e., cans, plastic bottles, paper, cardboard, etc.), as well as residential appliances, would be allowed within the B-4; I-1 and & I-2 zone districts as a "Residential Recycling Center". Such use would be subject to the following performance standards:

1. No commercial equipment or mechanical components may be recycled at said facility.
2. All recycling activities, including dis-assembly, compacting and packaging necessary for transport must occur inside of an enclosed building.
3. No outside storage of materials is permissible other than inside of a totally enclosed and opaque container.

Please feel free to contact me if you have any questions regarding this matter.

Cordially,

Paul R. Tice II, AICP  
Planning & Development Director
