SAFETY PLAN

It's important to develop a safety plan for yourself and your children. Planning in advance for your safety can help prevent the possibility of further violence.

CHECKLIST:

- ☐ Teach your children to call the police, neighbor, relative or friend.
- ☐ Select a code word that your children, friends or neighbors know to call the police immediately.
- ☐ Prepare to leave. Save a little money each week and put it in a place only you know.
- ☐ Arrange for a safe place to stay, anytime of the day and/or night.
- ☐ Pack some personal belongings for you and your children such as clothing, medicines, toys, etc.
- ☐ Gather and organize important papers and documents such as birth certificates, passports, insurance cards, immunization records and bank statements, etc.
