SOLO RESCUE DECON WASHER

The Casa Grande Fire Department's Solo Rescue Decon Washers remove up to 99% of cancer-causing contaminants from firefighting gear in under 10 minutes, improving safety and reducing long-term health risks for our first responders.

These advanced machines 1. Reduce cancer risk by thoroughly cleaning gear 2. Speed up decontamination for quicker response times 3. Minimize toxic exposure for firefighters 4. Use just 1.6 gallons of water per cycle, offering a more efficient and eco-friendly alternative.

The lifesaving technology has been deployed at several fire stations throughout the city and are a smarter, safer, and more sustainable way to protect those who protect us.

COMING SOON | Fall of 2025

What's Going Up?

Stay informed with the "What's Going Up" map on the city website, a helpful online tool designed to keep Casa Grande residents knowledgeable about current and upcoming development projects throughout the city.

Whether it's a new business or a housing development, the "What's Going Up" map gives you a clear view of what's happening in your community. You can explore project details, locations, and timelines. By offering this tool, we are making it easier for residents to stay updated and feel connected to the growth and progress shaping our city.

COMING SOON | Spring of 2026

Public Works Project Tracker

The Public Works Department Project Tracker Map will offer residents an easy way to stay updated on key capital improvement projects across the community. It displays current and upcoming projects through an interactive map. From roadway impacts to water and sewer infrastructure, the map provides information on project locations, descriptions, and timelines. It's part of our ongoing commitment to transparency and keeping residents informed about the investments being made to improve Casa Grande.
